Submitting a Lawyers Opinion Letter

To facilitate order processing, complete and submit the Lawyers Opinion Letter. The Lawyers Opinion Letter verifies certificate and organization details and enables faster issuance of your certificate.

**IMPORTANT!** The Lawyers Opinion Letter is the simplest and most expedient method to provide required verification information. If this verification information is not provided through the Lawyers Opinion Letter, it must be provided through other means (described below).

*thawte* must be able to confirm the following regarding the Lawyers Opinion Letter:

+ The letter must be from a lawyer, solicitor, barrister, advocate, or equivalent licensed to practice law in the country of the requesting organization’s jurisdiction of incorporation, or in any jurisdiction where the organization maintains an office or physical facility.

+ *thawte* must be able to verify with the appropriate authority that the lawyer is registered in the appropriate jurisdiction.

The Lawyers Opinion Letter is found on page 8. Fax or email the completed letter to:

Fax: +1 650 237 8888
International Email: ev-orderprocessing@thawte.com
US, Canada and Latin Email: cs-support@thawte.com
Organization authentication requirements

To qualify for an Extended Validation SSL Certificate, the organization requesting the certificate must be registered as a corporation or equivalent with the appropriate government agency in its country of jurisdiction.

thawte must be able to confirm all of the following organizational registration requirements:

- Official government agency records must include:
  - The organization’s registration number.
  - The organization’s date of registration/incorporation.
  - The organization’s registered address (or the address of the company’s registered agent).

- A non-government data source (such as Dun & Bradstreet) must include the organization’s place of business address.

- If the organization has been registered for less than 3 years, thawte must verify operational existence through one of the following means:
  - Through a non-government data source (such as Dun & Bradstreet)
  - By verifying the organization has an active demand deposit account (such as a checking account) with a regulated financial institution through a lawyer's opinion letter or directly with the financial institution.

Domain authentication requirements

To qualify for an Extended Validation SSL Certificate, domain registration details must reflect the full organization name as included on the certificate request.

- The domain must be registered with ICANN or IANA registrar (for CCTLDs).
- A parent or subsidiary relationship does not represent sufficient proof of ownership of the domain name. Domain registration details must be updated to reflect the full organization name as included on the certificate request.
- The Organizational Contact must confirm knowledge of the organization’s domain ownership during the verification call.
**Organizational Contact authentication requirements**

To qualify for an Extended Validation SSL Certificate, the Organizational Contact identified in the certificate request must be employed by the requesting organization and have appropriate authority to obtain and delegate Extended Validation certificate responsibilities.

Note: Employment and authorization cannot be verified through the organization’s Web site.

Note: If the Organizational Contact identified in the certificate request is listed in government records as a corporate officer (such as Secretary, President, CEO, CFO, COO, CIO, CSO, Director, or equivalent), then organizational contact employment and authorization can be approved without verifying this information as described below.

**thawte must be able to confirm all of the following Organizational Contact requirements:**

+ Organizational Contact’s identity, title, and employment through an independent source.
+ Organizational Contact is authorized to obtain and approve EV certificates on behalf of the Organization and to delegate this authority to others. This can be verified through one of the following methods:
  + A lawyer’s opinion letter
  + A Corporate Resolution letter
  + Directly contacting the CEO, COO, or similar executive at the organization and confirming the authority of the organizational contact. If no public records are available regarding the CEO, COO, or other executive, *thawte* will attempt to contact the organization’s human resources department for contact details.

**Order verification requirements**

As part of processing an Extended Validation SSL Certificate, *thawte* must verify the certificate request and all certificate details with the Organizational Contact identified in the certificate request. *thawte* must contact the Organizational Contact using an independently-obtained telephone number (not the telephone number provided in the order).
This telephone number is obtained through one of the following methods:

+ By researching qualified telephone databases to find a telephone number. Ensure your organization’s primary telephone number is listed in a public telephone directory.
+ As provided in a lawyer’s opinion letter.
+ As confirmed during a site visit conducted by thawte.

During the verification call, thawte must verify the following with the Organizational Contact:

+ The name of the technical contact identified in the certificate request and his or her authority to obtain the Extended Validation certificate on behalf of the organization.
+ Knowledge of the company’s ownership and right to use the domain identified in the certificate request.
+ Approval of the Extended Validation SSL Certificate request.
+ Acknowledgement of signature of thawte Extended Validation Subscriber Agreement
